**NBP3-12746G****Hepatitis C Virus E2 Antibody [DyLight 488]**

| <b>Product Information</b>         |                                                                                                                       |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>                   | 0.1 ml                                                                                                                |
| <b>Concentration</b>               | Please see the vial label for concentration. If unlisted please contact technical services.                           |
| <b>Storage</b>                     | Store at 4C in the dark.                                                                                              |
| <b>Clonality</b>                   | Polyclonal                                                                                                            |
| <b>Preservative</b>                | 0.05% Sodium Azide                                                                                                    |
| <b>Isotype</b>                     | IgG                                                                                                                   |
| <b>Conjugate</b>                   | DyLight 488                                                                                                           |
| <b>Purity</b>                      | Protein A purified                                                                                                    |
| <b>Buffer</b>                      | 50mM Sodium Borate                                                                                                    |
| <b>Product Description</b>         |                                                                                                                       |
| <b>Host</b>                        | Rabbit                                                                                                                |
| <b>Species</b>                     | Virus                                                                                                                 |
| <b>Reactivity Notes</b>            | Hepatitis C virus (HCV-1a)                                                                                            |
| <b>Specificity/Sensitivity</b>     | Hepatitis C virus (HCV-1a) E2                                                                                         |
| <b>Immunogen</b>                   | Produced in rabbits immunized with purified, recombinant Hepatitis C Virus E2 (Accession#: NP_751921.1; Glu1-Glu278). |
| <b>Notes</b>                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                     |
| <b>Product Application Details</b> |                                                                                                                       |
| <b>Applications</b>                | Western Blot, ELISA                                                                                                   |
| <b>Recommended Dilutions</b>       | Western Blot, ELISA                                                                                                   |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                |
