Methoxypolyethylene Glycol Antibody - BSA Free

| Product Information |                                                                                                                  |
|---------------------|------------------------------------------------------------------------------------------------------------------|
| Unit Size           | 100 ul                                                                                                           |
| Concentration       | Concentrations vary lot to lot. See vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.                           |
| Clonality           | Polyclonal                                                                                                       |
| Preservative        | 0.025% Proclin 300                                                                                               |
| Isotype             | IgG                                                                                                              |
| Purity              | Protein A purified                                                                                               |
| Buffer              | PBS (pH 7), 20% Glycerol                                                                                         |

| Product Description |                                                                                                         |
|---------------------|---------------------------------------------------------------------------------------------------------|
| Description         | Centrifuge briefly prior to opening.                                                                    |
| Host                | Rabbit                                                                                                  |
| Species             | Non-species specific                                                                                    |
| Immunogen           | The immunogen used to generate this antibody corresponds to Methoxypolyethylene Glycol (methoxy group). |

| Product Application Details |              |
|-----------------------------|--------------|
| Applications                | Western Blot |
| Recommended Dilutions       | Western Blot |

**Images**

Western Blot: Methoxypolyethylene Glycol Antibody [NBP3-13464] - Polyethylene Glycolylated OVA (1 ug) were separated by 12% SDS-PAGE, and the membrane was blotted with Polyethylene Glycol (methoxy group) antibody (NBP3-13464) diluted at 1:200000. The HRP-conjugated anti-rabbit IgG antibody (NBP2-19301) was used to detect the primary antibody.
