| <b>Buffer</b>        | PBS. Sterile-filtered through 0.22 um.                                                 |

**Product Description**

|                    |                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------|
| <b>Description</b> | Stable at 4C for 12 months.<br><br>Hybridoma: Myeloma X63/AG.8653 x Balb/c spleen cells |
| <b>Host</b>        | Mouse                                                                                   |
| <b>Gene ID</b>     | 355                                                                                     |
| <b>Gene Symbol</b> | FAS                                                                                     |
| <b>Species</b>     | Human                                                                                   |
| <b>Immunogen</b>   | Recombinant Fas/TNFRSF6/CD95 antigen                                                    |

**Product Application Details**

|                              |                                                     |
|------------------------------|-----------------------------------------------------|
| <b>Applications</b>          | Flow Cytometry, Functional, Immunohistochemistry    |
| <b>Recommended Dilutions</b> | Flow Cytometry, Immunohistochemistry, Functional    |
| <b>Application Notes</b>     | Biological Activity: Triggers Fas induced apoptosis |

**Images**

Flow Cytometry: Fas/TNFRSF6/CD95 Antibody (B-G27) [NBP3-14592] - A typical staining pattern with the B-G27 monoclonal antibody of lymphocytes.
