**NBP3-15151**

ITCH/AIP4 Antibody (9C3) - BSA Free

**Product Information**

|                      |                                                                                             |
|----------------------|---------------------------------------------------------------------------------------------|
| <b>Unit Size</b>     | 100 ul                                                                                      |
| <b>Concentration</b> | Please see the vial label for concentration. If unlisted please contact technical services. |
| <b>Storage</b>       | Store at -20 to -70C. Avoid freeze-thaw cycles.                                             |
| <b>Clonality</b>     | Monoclonal                                                                                  |
| <b>Clone</b>         | 9C3                                                                                         |
| <b>Preservative</b>  | 0.02% Sodium Azide                                                                          |
| <b>Isotype</b>       | IgG                                                                                         |
| <b>Purity</b>        | Affinity purified                                                                           |
| <b>Buffer</b>        | PBS, pH 7.4, 150mM NaCl, and 50% glycerol                                                   |

**Product Description**

|                    |                                                                          |
|--------------------|--------------------------------------------------------------------------|
| <b>Host</b>        | Rabbit                                                                   |
| <b>Gene ID</b>     | 83737                                                                    |
| <b>Gene Symbol</b> | ITCH                                                                     |
| <b>Species</b>     | Human                                                                    |
| <b>Immunogen</b>   | A synthesized peptide derived from human ITCH/AIP4. UniProt ID (Q96J02). |

**Product Application Details**

|                              |                                  |
|------------------------------|----------------------------------|
| <b>Applications</b>          | Western Blot, ELISA              |
| <b>Recommended Dilutions</b> | Western Blot 1:500-1:5000, ELISA |

**Images**

Western Blot: ITCH/AIP4 Antibody (9C3) [NBP3-15151] - Positive WB detected in: K562 whole cell lysate, U-251 whole cell lysate, THP-1 whole cell lysate. All lanes: ITCH/AIP4 antibody at 1:1000. Secondary: Goat polyclonal to rabbit IgG at 1/50000 dilution. Predicted band size: 103, 99, 87 KDa. Observed band size: 103 KDa.
