| <b>Host</b>        | Rabbit                                                                                                                                                                                                                     |
| <b>Gene ID</b>     | 6596                                                                                                                                                                                                                       |
| <b>Gene Symbol</b> | HLTF                                                                                                                                                                                                                       |
| <b>Species</b>     | Human, Mouse, Rat                                                                                                                                                                                                          |
| <b>Immunogen</b>   | A synthetic peptide corresponding to a sequence within amino acids 900-1009 of human HLTF (Q14527).<br>TEAGSPTIMLLSLKAGGVGLNLSAASRVFLMDPAWNPAEDQCFDRCHRLGQ<br>KQEVITKFIVKDSVEENMLKIQNKKRELAAGAFGTKKPNADMKQAKINEIRTLI<br>DL |

**Product Application Details**

|                              |                             |
|------------------------------|-----------------------------|
| <b>Applications</b>          | Western Blot                |
| <b>Recommended Dilutions</b> | Western Blot 1:500 - 1:1000 |

**Images**

Western Blot: HLTF Antibody (8T0I2) [NBP3-16542] - Western blot analysis of extracts of various cell lines, using HLTF Rabbit mAb (NBP3-16542) at 1:1000 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:10000 dilution. Lysates/proteins: 25ug per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit. Exposure time: 30s.
