NBP3-18641-100ul**ZBTB38 Antibody****Product Information**

Unit Size	100 ul
Concentration	Please see the vial label for concentration. If unlisted please contact technical services.
Storage	Store at -20C short term. Aliquot and store at -80C long term. Avoid freeze-thaw cycles.
Clonality	Polyclonal
Preservative	0.05% Sodium Azide
Purity	Whole Antiserum
Buffer	Whole antiserum

Product Description

Host	Rabbit
Gene Symbol	ZBTB38
Species	Human
Immunogen	Polyclonal antibody raised in rabbit against human ZBTB38 (zinc finger and BTB domain containing 38), using three KLH-conjugated synthetic peptides, two containing a sequence from the central part and one containing a sequence from the C-terminal part of the protein.

Product Application Details

Applications	Western Blot, ELISA
Recommended Dilutions	Western Blot 1:1000, ELISA 1:100-1:1000

Images

Western Blot: ZBTB38 Antibody [NBP3-18641] - Figure 2. Western blot analysis using the antibody directed against ZBTB38. Nuclear extracts of HeLa cells (40 ug) were analysed by Western blot using the antibody against ZBTB38 diluted 1:1,000 in TBS-Tween containing 5% skimmed milk. The position of the protein of interest (expected size: 138 kDa) is indicated on the right; the marker (in kDa) is shown on the left.

ELISA: ZBTB38 Antibody [NBP3-18641] - Figure 1. Determination of the titer. To determine the titer, an ELISA was performed using a serial dilution of the antibody directed against human ZBTB38. The plates were coated with the peptides used for immunization of the rabbit. By plotting the absorbance against the antibody dilution (Figure 1), the titer of the antibody was estimated to be 1:26,000.
