IRF5 Antibody

| Product Information     |                                          |
|-------------------------|------------------------------------------|
| Unit Size               | 100 ul                                   |
| Concentration           | 1 mg/ml                                  |
| Storage                 | Store at -20C. Avoid freeze-thaw cycles. |
| Clonality               | Polyclonal                               |
| Preservative            | 0.02% Sodium Azide                       |
| Isotype                 | IgG                                      |
| Purity                  | Immunogen affinity purified              |
| Buffer                  | PBS, 50% glycerol, 0.5% BSA              |
| Target Molecular Weight | 56 kDa                                   |

| Product Description     |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Host                    | Rabbit                                                                                              |
| Gene Symbol             | IRF5                                                                                                |
| Species                 | Human, Mouse, Rat                                                                                   |
| Specificity/Sensitivity | IRF5 (Phospho-Ser437) Antibody detects endogenous levels of IRF5 only when phosphorylated at Ser437 |
| Immunogen               | A synthesized peptide derived from human IRF5 (Phospho-Ser437)                                      |

| Product Application Details |                     |
|-----------------------------|---------------------|
| Applications                | Western Blot        |
| Recommended Dilutions       | Western Blot 1:1000 |
