| <b>Gene Symbol</b>                 | CENPJ                                                                                                                                                                                                                                         |
| <b>Species</b>                     | Human                                                                                                                                                                                                                                         |
| <b>Immunogen</b>                   | This antibody has been engineered to specifically recognize the recombinant protein CENPJ using the following amino acid sequence:<br>SNILSHEQSNFCRTAHGDFVLTSKRASPRLFSEAQYQEAPVEKNNLKEENRNH<br>PTGESILCWEKVTEQIQEANDKNLQKHDDSSEVANIEERPIKAAIG |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                               |
| <b>Applications</b>                | Immunocytochemistry/Immunofluorescence                                                                                                                                                                                                        |
| <b>Recommended Dilutions</b>       | Immunocytochemistry/Immunofluorescence 0.25-2 µg/ml                                                                                                                                                                                           |
| <b>Application Notes</b>           | For ICC/IF, we recommend using a combination of PFA and Triton X-100. This will give you the optimal results for your experiments.                                                                                                            |
