| <b>Description</b> | <p>A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human FLJ10815</p> <p><b>Source:</b> <i>E.coli</i></p> <p><b>Amino Acid Sequence:</b> QQDKIIAVMAKEPEGASGPWYTDRK</p> <p><b>Fusion Tag:</b> N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)</p> |
| <b>Gene ID</b>     | 55238                                                                                                                                                                                                                                                                                                                  |
| <b>Gene Symbol</b> | SLC38A7                                                                                                                                                                                                                                                                                                                |
| <b>Species</b>     | Human                                                                                                                                                                                                                                                                                                                  |

**Product Application Details**

|                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>          | Antibody Competition                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Recommended Dilutions</b> | Antibody Competition 10-100 molar excess                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Application Notes</b>     | <p>This recombinant antigen is only intended to be used as a blocking agent to confirm antibody specificity with the corresponding antibody, catalog number NBP3-24851. It is purified by IMAC chromatography, and the expected concentration is greater than 0.5 mg/ml. For current lot information, including availability, please contact our technical support team click <a href="mailto:nb-technical@bio-techne.com">nb-technical@bio-techne.com</a>.</p> |
