**NBP3-26337-100ul**

Serum Amyloid A1 Antibody (20G5) - BSA Free

**Product Information**

|                      |                                                                                             |
|----------------------|---------------------------------------------------------------------------------------------|
| <b>Unit Size</b>     | 100 ul                                                                                      |
| <b>Concentration</b> | Please see the vial label for concentration. If unlisted please contact technical services. |
| <b>Storage</b>       | Store at -20 to -70C. Avoid freeze-thaw cycles.                                             |
| <b>Clonality</b>     | Monoclonal                                                                                  |
| <b>Clone</b>         | 20G5                                                                                        |
| <b>Preservative</b>  | 0.02% Sodium Azide                                                                          |
| <b>Isotype</b>       | IgG                                                                                         |
| <b>Purity</b>        | Affinity purified                                                                           |
| <b>Buffer</b>        | PBS, pH 7.4, 150mM NaCl, and 50% glycerol                                                   |

**Product Description**

|                    |                                                                            |
|--------------------|----------------------------------------------------------------------------|
| <b>Host</b>        | Rabbit                                                                     |
| <b>Gene ID</b>     | 6288                                                                       |
| <b>Gene Symbol</b> | SAA1                                                                       |
| <b>Species</b>     | Human                                                                      |
| <b>Immunogen</b>   | A synthesized peptide derived from Human Serum Amyloid A1 [UniProt P0DJ18] |

**Product Application Details**

|                              |                                  |
|------------------------------|----------------------------------|
| <b>Applications</b>          | ELISA, Flow Cytometry            |
| <b>Recommended Dilutions</b> | Flow Cytometry 1:50-1:200, ELISA |

**Images**

Flow Cytometry: Serum Amyloid A1 Antibody (20G5) [NBP3-26337] - Overlay Peak curve showing HepG2 cells stained with Serum Amyloid A1 Antibody (20G5) (red line) at 1:50. The cells were fixed in 4% formaldehyde and permeated by 0.2% Triton X-100. Then 10% normal goat serum to block non-specific protein-protein interactions followed by the antibody (1ug/1\*10<sup>6</sup> cells) for 45min at 4C. The secondary antibody used was FITC-conjugated Goat Anti-rabbit IgG (H+L) at 1:200 dilution for 35min at 4C. Control antibody (green line) was rabbit IgG (1ug/1\*10<sup>6</sup> cells) used under the same conditions. Acquisition of >10,000 events was performed.
