| Species                     | Human                                                                                       |
| Immunogen                   | A synthesized peptide derived from Human Cathepsin S [UniProt P25774]                       |
| Product Application Details |                                                                                             |
| Applications                | ELISA, Immunohistochemistry                                                                 |
| Recommended Dilutions       | ELISA, Immunohistochemistry 1:50-1:200                                                      |

## Images

Immunohistochemistry: Cathepsin S Antibody (9B10) [NBP3-26639] - Image of Cathepsin S Antibody (9B10) diluted at 1:100 and staining in paraffin-embedded human tonsil tissue performed. After dewaxing and hydration, antigen retrieval was mediated by high pressure in a citrate buffer (pH 6.0). Section was blocked with 10% normal goat serum 30min at RT. Then primary antibody (1% BSA) was incubated at 4C overnight. The primary is detected by a Goat anti-rabbit IgG polymer labeled by HRP and visualized using 0.05% DAB.
