BCOR Antibody (BCOR/2372)

| Product Information |                         |
|---------------------|-------------------------|
| Unit Size           | 100 ug                  |
| Concentration       | 0.2 mg/ml               |
| Storage             | Store at 4C.            |
| Clonality           | Monoclonal              |
| Clone               | BCOR/2372               |
| Preservative        | 0.05% Sodium Azide      |
| Isotype             | IgG1 Kappa              |
| Purity              | Protein A or G purified |
| Buffer              | 10mM PBS with 0.05% BSA |

| Product Description |                                                                                                                         |
|---------------------|-------------------------------------------------------------------------------------------------------------------------|
| Description         | Antibody with azide - store at 2 to 8C. Antibody without azide - store at -20 to -80C. Non-hazardous. No MSDS required. |
| Host                | Mouse                                                                                                                   |
| Gene ID             | 54880                                                                                                                   |
| Gene Symbol         | BCOR                                                                                                                    |
| Species             | Human                                                                                                                   |
| Immunogen           | Recombinant fragment (around aa 100-400) of human BCOR protein (exact sequence is proprietary)                          |

| Product Application Details |                                                                                                                                                                                                                                                                                                    |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Applications                | Immunohistochemistry-Paraffin                                                                                                                                                                                                                                                                      |
| Recommended Dilutions       | Immunohistochemistry-Paraffin 1-2ug/ml for 30 minutes at RT                                                                                                                                                                                                                                        |
| Application Notes           | Immunohistochemistry-Paraffin 1-2ug/ml for 30 minutes at RT. Optimal dilution for a specific application should be determined.. Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95C followed by cooling at RT for 20 minutes |

## Images

Analysis of Protein Array containing more than 19,000 full-length human proteins using BCOR Antibody (BCOR/2372).

Formalin-fixed, paraffin-embedded human tonsil stained with BCOR Antibody (BCOR/2372). Inset: PBS instead of primary antibody; secondary only negative control.
