| <b>Buffer</b>        | 50mM Sodium Borate                                                                          |

**Product Description**

|                    |                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b> | The heavy chain type is hulgG1, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.<br><br>Patent #: US20130323252 |
| <b>Host</b>        | Human                                                                                                                                   |
| <b>Gene ID</b>     | 55107                                                                                                                                   |
| <b>Gene Symbol</b> | ANO1                                                                                                                                    |
| <b>Species</b>     | Human                                                                                                                                   |
| <b>Immunogen</b>   | ANO1 / TMEM16A                                                                                                                          |
| <b>Notes</b>       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                       |

**Product Application Details**

|                              |                                                                        |
|------------------------------|------------------------------------------------------------------------|
| <b>Applications</b>          | ELISA, Flow Cytometry, Functional                                      |
| <b>Recommended Dilutions</b> | Flow Cytometry, ELISA, Functional                                      |
| <b>Application Notes</b>     | Optimal dilution of this antibody should be experimentally determined. |
