

# Product Datasheet

## **TFPI Antibody - Humanized, IgG4SP, (Research Grade concizumab Biosimilar) - Low Endotoxin, Azide and BSA Free**

### **NBP3-28210-100ug**

Unit Size: 100 ug

Store at -20C in powder form. Store at -80C once reconstituted.

| <b>Concentration</b>               | LYOPH mg/ml                                                                                                                           |
| <b>Storage</b>                     | Store at -20C in powder form. Store at -80C once reconstituted.                                                                       |
| <b>Clonality</b>                   | Monoclonal                                                                                                                            |
| <b>Preservative</b>                | No Preservative                                                                                                                       |
| <b>Reconstitution Instructions</b> | Reconstitute with sterile, distilled water to a final concentration of 1 mg/ml. Gently shake to solubilize completely. Do not vortex. |
| <b>Isotype</b>                     | IgG4                                                                                                                                  |
| <b>Purity</b>                      | Protein A purified                                                                                                                    |
| <b>Buffer</b>                      | Lyophilized from 25mM histidine, 8% sucrose, 0.01% Tween80 (pH6.2)                                                                    |

**Product Description**

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>      | <p>The heavy chain type is huIgG4SP, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.</p> <p>Also known as 'concizumab'.</p> <p>IgG4SP is human IgG4 with S228P mutation.</p> <p>This product is shipped at ambient temperature. Upon receipt, store immediately at -20C or lower for 12 months in a lyophilized state. - 80C for 3 months after reconstitution. Avoid repeated freeze-thaw cycles.</p> |
| <b>Host</b>             | Human                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Gene ID</b>          | 7035                                                                                                                                                                                                                                                                                                                                                                                                                            |
