Axl Antibody [CoraFluor™ 1] - (Research Grade mipasetamAb Biosimilar)

| Product Information         |                                                                                                                                                               |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Unit Size                   | 0.1 ml                                                                                                                                                        |
| Concentration               | Please see the vial label for concentration. If unlisted please contact technical services.                                                                   |
| Storage                     | Store at 4C in the dark. Do not freeze.                                                                                                                       |
| Clonality                   | Monoclonal                                                                                                                                                    |
| Preservative                | No Preservative                                                                                                                                               |
| Isotype                     | IgG1                                                                                                                                                          |
| Conjugate                   | CoraFluor 1                                                                                                                                                   |
| Purity                      | Protein A purified                                                                                                                                            |
| Buffer                      | PBS                                                                                                                                                           |
| Product Description         |                                                                                                                                                               |
| Description                 | The heavy chain type is hulgG1, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.<br><br>Also known as 'mipasetamAb'.                  |
| Host                        | Human                                                                                                                                                         |
| Gene ID                     | 558                                                                                                                                                           |
| Gene Symbol                 | AXL                                                                                                                                                           |
| Species                     | Human                                                                                                                                                         |
| Immunogen                   | AXL / UFO                                                                                                                                                     |
| Notes                       | CoraFluor (TM) is a trademark of Bio-Techne Corp. Sold for research purposes only under agreement from Massachusetts General Hospital. US patent 2022/0025254 |
| Product Application Details |                                                                                                                                                               |
| Applications                | ELISA, Flow Cytometry, Functional                                                                                                                             |
| Recommended Dilutions       | Flow Cytometry, ELISA, Functional                                                                                                                             |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                        |
