| Preservative                | 0.05% Sodium Azide                                                                                                                            |
| Isotype                     | IgG2                                                                                                                                          |
| Conjugate                   | Biotin                                                                                                                                        |
| Purity                      | Protein A purified                                                                                                                            |
| Buffer                      | PBS                                                                                                                                           |
| Product Description         |                                                                                                                                               |
| Description                 | The heavy chain type is hulgG2, and the light chain type is hulambda. It has a predicted MW of 145.5 kDa.<br><br>Also known as 'tezepelumab'. |
| Host                        | Human                                                                                                                                         |
| Gene ID                     | 85480                                                                                                                                         |
| Gene Symbol                 | TSLP                                                                                                                                          |
| Species                     | Human                                                                                                                                         |
| Reactivity Notes            | Predicted species reactivity: Cynomolgus                                                                                                      |
| Immunogen                   | TSLP                                                                                                                                          |
| Product Application Details |                                                                                                                                               |
| Applications                | ELISA, Flow Cytometry, Functional                                                                                                             |
| Recommended Dilutions       | Flow Cytometry, ELISA, Functional                                                                                                             |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                        |
