| Purity                      | Protein A purified                                                                                                                                 |
| Buffer                      | 50mM Sodium Borate                                                                                                                                 |
| Product Description         |                                                                                                                                                    |
| Description                 | <p>The heavy chain type is hulgG3, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.</p> <p>Also known as 'radretumab'.</p> |
| Host                        | Human                                                                                                                                              |
| Gene ID                     | 2335                                                                                                                                               |
| Gene Symbol                 | FN1                                                                                                                                                |
| Species                     | Human                                                                                                                                              |
| Immunogen                   | Fibronectin                                                                                                                                        |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                  |
| Product Application Details |                                                                                                                                                    |
| Applications                | ELISA, Flow Cytometry, Functional                                                                                                                  |
| Recommended Dilutions       | Flow Cytometry, ELISA, Functional                                                                                                                  |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                             |
