| Clonality                   | Monoclonal                                                                                                                                                                                           |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                                   |
| Isotype                     | IgG2                                                                                                                                                                                                 |
| Conjugate                   | DyLight 405                                                                                                                                                                                          |
| Purity                      | Protein A purified                                                                                                                                                                                   |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                                   |
| Product Description         |                                                                                                                                                                                                      |
| Description                 | <p>The heavy chain type is hulgG2, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.</p> <p>Also known as 'romosozumab'.</p> <p>IgG2SA is human IgG2 with S378A mutation.</p> |
| Host                        | Human                                                                                                                                                                                                |
| Gene ID                     | 50964                                                                                                                                                                                                |
| Gene Symbol                 | SOST                                                                                                                                                                                                 |
| Species                     | Human                                                                                                                                                                                                |
| Reactivity Notes            | Predicted species reactivity: Mouse, Cynomolgus                                                                                                                                                      |
| Immunogen                   | SOST / Sclerostin                                                                                                                                                                                    |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                    |
| Product Application Details |                                                                                                                                                                                                      |
| Applications                | ELISA, Flow Cytometry, Functional                                                                                                                                                                    |
| Recommended Dilutions       | Flow Cytometry, ELISA, Functional                                                                                                                                                                    |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                               |
