| Conjugate                   | DyLight 350                                                                                                                                                                                           |
| Purity                      | Protein A purified                                                                                                                                                                                    |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                                    |
| Product Description         |                                                                                                                                                                                                       |
| Description                 | <p>The heavy chain type is hulgG4SP, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.</p> <p>Also known as 'ixekizumab'.</p> <p>IgG4SP is human IgG4 with S228P mutation.</p> |
| Host                        | Human                                                                                                                                                                                                 |
| Gene ID                     | 3605                                                                                                                                                                                                  |
| Gene Symbol                 | IL17A                                                                                                                                                                                                 |
| Species                     | Human                                                                                                                                                                                                 |
| Reactivity Notes            | Predicted species reactivity: Cynomolgus                                                                                                                                                              |
| Immunogen                   | CTLA-8 / IL-17a                                                                                                                                                                                       |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                     |
| Product Application Details |                                                                                                                                                                                                       |
| Applications                | ELISA, Flow Cytometry, Functional                                                                                                                                                                     |
| Recommended Dilutions       | Flow Cytometry, ELISA, Functional                                                                                                                                                                     |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                |
