| Clone                       | NEO-201                                                                                                                                        |
| Preservative                | 0.05% Sodium Azide                                                                                                                             |
| Isotype                     | IgG1                                                                                                                                           |
| Conjugate                   | FITC                                                                                                                                           |
| Purity                      | Protein A purified                                                                                                                             |
| Buffer                      | PBS                                                                                                                                            |
| Product Description         |                                                                                                                                                |
| Description                 | <p>The heavy chain type is hulgG1, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.</p> <p>Patent #: US20240101702</p> |
| Host                        | Human                                                                                                                                          |
| Gene ID                     | 4680                                                                                                                                           |
| Gene Symbol                 | CEACAM6                                                                                                                                        |
| Species                     | Human                                                                                                                                          |
| Immunogen                   | CEACAM6 / CD66c                                                                                                                                |
| Product Application Details |                                                                                                                                                |
| Applications                | ELISA, Flow Cytometry, Functional                                                                                                              |
| Recommended Dilutions       | Flow Cytometry, ELISA, Functional                                                                                                              |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                         |
