| Purity                      | Protein A purified                                                                                                                                 |
| Buffer                      | 50mM Sodium Borate                                                                                                                                 |
| Product Description         |                                                                                                                                                    |
| Description                 | <p>The heavy chain type is hulgG1, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.</p> <p>Also known as 'zelminemab'.</p> |
| Host                        | Human                                                                                                                                              |
| Gene ID                     | 116                                                                                                                                                |
| Gene Symbol                 | ADCYAP1                                                                                                                                            |
| Species                     | Human                                                                                                                                              |
| Immunogen                   | PAC1                                                                                                                                               |
